

TRIANGLE ANALYTICAL, INC. COMPANY FACT SHEET

Company:

Triangle Analytical, Inc.

Headquarters:

481 James Jackson Avenue, Cary, NC 27513-3170, USA

Mission:

To offer quality, reliable, honest service and support to the rapidly expanding nuclear magnetic resonance community.

Business:

Services and supports nuclear magnetic resonance spectrometers and magnets up to 600 MHz. Triangle Analytical's business is driven by field service contracts, commercial sales as well as strategic partnerships, consulting, customer support and other services.

Financing:

Triangle Analytical, Inc. is privately held.

History:

Founded in 2002 by NMR veteran Jerry Hatvany, Triangle Analytical, Inc. is a new company that has emerged from many years of experience. Beginning with successful service engineer positions with companies like Varian®, Chemagnetics® in the 1980's, Jerry went on to serve The University of Akron's Department of Chemistry as a site engineer for much of the 90's. With the completion of a highly successful NMR/MRI commercial partnership over the past 6 years, Jerry has been servicing, repairing and refurbishing NMR spectrometers and magnets for over 20 years. Joined by field service engineers Charlie Alexander, Robert "Bud" Avant and John Thatcher, Jerry has assembled a world class team to handle just about everything the NMR community can dish up. From its inception, Triangle Analytical, Inc. has passionately sought to bring honesty and integrity to the NMR community by offering excellent, value-added service at a competitive price. In less than a year, the company has established a profitable, sustainable business model through NMR service and support, continuing to reinvest heavily in the business for solid, sustainable growth.

Services:

Triangle Analytical, Inc. offers NMR magnet service and repair, a door-to-door instrument relocation service, cryogen trans-fill services, preventative maintenance services, as well as parts and accessories sales that include installation and testing.

Customers:

Triangle Analytical, Inc. services over 50 sites nationwide including many Fortune 500 companies, leading academic institutions and government laboratories.
